

What We Do

Choicecomm is an experienced, technically knowledgeable, consultative sales organization that provides communication transmission and test products from the various manufacturers we represent. We work one-on-one with customers to assist with the product selection process by providing our technical expertise and factory resources. **This assures that the customer gets the right product the first time.** After the sale we are a single point-of-contact for all issues regarding multiple manufacturers products. Below are the Top Manufacturers we support. We also have a separate list of cable infrastructure products we offer from various manufacturers.

Networking Equipment Manufacturers - Ahead, Quickeagle, and Eastern Research are on GSA Schedule GS35F0593R
